Company Profile

VIVA CROP SCIENCES INDIA PVT. LTD., an ISO 9001:2015 certified company, has been a trusted name in the agrochemical industry since 2006. With a strong commitment to innovation, quality, and sustainability, we specialize in the formulation, manufacturing, and supply of a comprehensive range of crop protection solutions, including insecticides, herbicides, weedicides, fungicides, plant growth promoters, and bio-stimulants.

Backed by over four decades of industry expertise, our promoters have played a pivotal role in driving the company's growth and ensuring the highest standards of research, development, and production. Our state-of-the-art manufacturing facility in Dhaturi, Sonipat (Haryana) is equipped to produce high-performance formulations such as granules (SG), capsule suspension (CS), flowable suspension (FS), emulsifiable concentrate (EC), and soluble liquids (SL). Every product undergoes rigorous quality control and scientific testing to ensure maximum efficacy, safety, and compliance with global standards.

With a vision to revolutionize agriculture, we continuously strive to develop innovative solutions that enhance crop productivity, protect against pests and diseases, and promote sustainable farming practices. Our eco-conscious approach integrates advanced technology with responsible manufacturing, minimizing environmental impact while maximizing efficiency.

At the core of our success lies a dedicated team of skilled professionals, researchers, and agronomists working towards empowering farmers with reliable and effective solutions. We are committed to fostering strong partnerships with farmers, distributors, and agribusinesses, ensuring mutual growth and prosperity. As we expand our footprint, our unwavering mission remains to support the global agricultural community with cutting-edge products that contribute to food security and a more resilient farming future.

Our Star Products

At VIVA CROP SCIENCES INDIA PVT. LTD., our star products are designed for superior crop protection, enhanced yield, and sustainable farming. Developed with cutting-edge technology and stringent quality control, they offer effective solutions against pests, weeds, and diseases, while promoting healthy plant growth.

From powerful insecticides and herbicides to potent fungicides and plant growth regulators, our formulations ensure efficiency, safety, and reliability. With a focus on innovation and sustainability, our products empower farmers with higher productivity and better crop quality.

- HUMIC AMINO SHINY BALLS

New Manufacturing Facility

We are excited to announce the commencement of our new state-of-the-art manufacturing facility under LUNA PROPACK LLP, further enhancing our production capabilities for high-quality Sulphur-based formulations. This expansion reinforces our commitment to innovation, sustainability, and excellence in crop protection solutions.

Our advanced facility will focus on the production of:

- Sulphur 80% WDG
- Sulphur 80% WP
- Sulphur 40% SL
- Sulphur 55.16% SC

With this new manufacturing unit, LUNA PROPACK LLP, in collaboration with VIVA CROP SCIENCES INDIA PVT. LTD., aims to strengthen supply, enhance quality, and support sustainable agriculture with cutting-edge solutions. Stay tuned for the launch and a new era of agrochemical excellence!

At Viva Crop Sciences India Pvt. Ltd., we are dedicated to revolutionizing agriculture with cutting-edge crop protection solutions that empower farmers and promote sustainable farming. Backed by decades of expertise, advanced research, and state-of-the-art manufacturing, we ensure superior quality and performance in every formulation.

With a strong commitment to environmental responsibility, precision, and farmer well-being, we continue to drive growth, innovation, and prosperity across India and beyond.
